

The idea that all of our media should and owned by a couple of large corporations is wrong and undemocratic. One needs to only look at the fact that only one TV network aired anything on the forum on Media Ownership and that was at 4am. This is a fundamental threat to democracy. I beg you please do not let media consolidation continue to happen. Please as keepers of our national trust make the right decision for our future, everyone's future.
Thank you.
